WORK HISTORY

07/2022 to 12/2022 **Full Stack Java Software Engineer**

Revature – Remote

- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability, and performance.
- Reviewed project specifications and designed technology solutions that met or exceeded performance expectations.
- Coordinated with other engineers to evaluate and improve software and hardware interfaces.
- Wrote highly maintainable, solid code for software system, forming core framework and earning consistent praise from subsequent developers since initial version.
- Adjusted design parameters to boost performance and incorporate new features.
- Introduced agile methodologies and development best practices to division to enhance product development.

- Understood full technology stack and underlying applications, services, and databases, resulting in optimal program performance.
- Paired with fellow engineers to brainstorm ideas, debug problems and review code.
- Developed B2C e-commerce website to reduce cart abandonment rate by 30%, resulting in increased online sales after go-live date

05/2018 to 05/2020 **Registered Nurse, Emergency Department**

Lebanese American University Medical Center – Beirut

- Minimized hospital stays with recovery-centered approaches, reducing average in-patient stay length.
- Orchestrated quality-driven, cost-effective care in high-volume trauma center setting.
- Led successful team comprised of RNs, LPNs, and ancillary staff.
- Audited charts and reviewed clinical documents to verify accuracy.
- Interviewed patients, assessed priorities, and documented case activity.
- Conferred with physicians to discuss diagnoses and devise well-coordinated treatment approaches.

03/2011 to 07/2015 **Hospital Clerk**

AUBMC – Beirut

- Worked with electronic health records software and database systems.
- Carried out front office duties utilizing data entry skills in framework of medical database.
- Received and routed laboratory results to correct clinical staff members.
